

Specifications laptop Avans University of Applied Sciences

Based on the systems frequently used in education, Avans University of Applied Science has compiled a list of requirements that a good student laptop must meet . We recommend to buy a laptop that meets all the requirements below:

- Display 14"-15", non-glossy
- CPU x64 Core i5 of i7 van de 7th generatie of nieuwer (minimaal 2GHz*)
- 16GB memory or more
- At least 250 GB SSD (HDD is also allowed , but is very slow)
- Office 365 use possible (Windows 8 of higher) --> The Office package can be downloaded free of charge via Avans!
- Manufacturer's WiFi driver must be installed
- Webcam
- 2 or 3 USB-ports and an USB-C-port
- No chromebook or MacBook

** For students of the programme Chemical Technology a minimum of 2.8 GHz is required.*

Purchase

The campusshop has several laptops in its offer that are suitable for the study programmes and offers a good service/guarantee for students. It is possible to select an institution and degree programme on their site. This is a service provided by the campusshop, not in collaboration with Avans.
